A Chromo to Every Subscriber was a very popular feature last year, and will be repeated with the present volume. The publishers have purchased and reproduced, at great expense, the beautiful oil painting by Seis, cutified "Dame Natures's School." The chromo is Hall inches, and is an exact fac-simile, in size and appearance, of the original picture. No American chromo, which will at all compare with it, has yet been offered at retail for less than the price asked for THE ALDINE and it together. It will be delivered free, with the January number, to every subscriber who pays for one year in advance.
